'For me a word of wisdom is more valuable than any gold.'
Democritus

INTRODUCTION

The calculation and prediction of GDP, the primary indicator of an economy, as well as the estimation of population size, both for individual countries and the world as a whole, are the subject of numerous monographs and articles. Consequently, many people constantly face the question of what direction their own country's economy, and the global economy in particular, will take in the near future, and how this will affect the income of the average citizen.

Based on the analysis of statistical data variables, the author has derived polynomial dependencies with sufficiently high correlation coefficients for most of them, which allows for the prediction of the considered variable values with a high degree of accuracy.

This book is dedicated to my son, *Mikhail*, and to the memory of my parents and elder brother.

CONTENTS

VOLUME II

CHAPTER 5

The Relationship Between Population Size and GDP in a Country

5.1. G8 Countries	458
USA	458
Japan	464
Germany	467
France	472
Italy	476
United Kingdom	480
Canada	486
Russia	489
5.2. BRIC Countries	494
China	494
Brazil	499
India	503
5.3. Developed Countries	508
Sweden	508
Finland	512
Spain	516
Republic of Korea	521
Australia	525
Turkey	529
5.4. Developing Countries	533
United Arab Emirates	533
Nigeria	537
Zambia	542
Peru	546
5.5. Countries Affected by Natural Disasters or Regime Change	551
Fiji	551
Indonesia	555
Dominican Republic	559
Haiti	564
5.6. Summary Tables Ranked by Correlation Coefficient (Descending Order)	568
5.7. Trajectories of Economic Development by Country and Year	576
CONCLUSION	585

CHAPTER 6

Projection of Population Growth (*Qps*) Across Countries Over Time

6.1. Identification of Population Growth Patterns (<i>Qps</i>)	586
USA	587
Japan	588
Germany	589
France	590
Italy	591
United Kingdom	592
Canada	593
Russia	594
China	595
Brazil	596
India	597
Sweden	598
Finland	599
Spain	600
Republic of Korea	601
Australia	602
Turkey	603
United Arab Emirates	604
Nigeria	605
Zambia	606
Peru	607

Fiji	608
Indonesia	609
Dominican Republic	610
Haiti	611
6.2. Tabular Presentation of Q_{pc} Projections	611
USA	612
Japan	612
Germany	613
France	613
Italy	614
United Kingdom	614
Canada	615
Russia	615
China	616
Brazil	616
India	617
Sweden	617
Finland	618
Spain	618
Republic of Korea	619
Australia	619
Turkey	620
United Arab Emirates	620
Nigeria	621
Zambia	621
Peru	622
Fiji	622
Indonesia	623
Dominican Republic	623
Haiti	624
6.3. Graphical Representation of Q_{pc} Projections	624
USA	624
Japan	625
Germany	625
France	625
Italy	626
United Kingdom	626
Canada	626
Russia	627
China	627
Brazil	627
India	628
Sweden	628
Finland	628
Spain	629
Republic of Korea	629
Australia	629
Turkey	630
United Arab Emirates	630
Nigeria	630
Zambia	631
Peru	631
Fiji	631
Indonesia	632
Dominican Republic	632
Haiti	632
6.4. Reliability Assessment of the Population Projections Q_{pc}	634
CONCLUSION	635
CHAPTER 7	
Projection of GDP_c	636
7.1. GDP_c Projections for the Selected Countries	636
USA	637

Japan	641
Germany	645
France	649
Italy	653
United Kingdom	657
Canada	661
Russia	665
China	669
Brazil	673
India	676
Sweden	679
Finland	683
Spain	687
Republic of Korea	691
Australia	695
Turkey	699
United Arab Emirates	702
Nigeria	706
Zambia	709
Peru	712
Fiji	715
Indonesia	719
Dominican Republic	722
Haiti	725
7.2. Reliability Assessment of the <i>GDP_c</i> Projections	729
7.3. <i>GDP_c</i> Projections under a Hypothetical Population Increase to 1.5 Billion	730
CONCLUSION	741
Dictionaries	742
Demography	742
Projection	762
Abbreviations	777
References	783
Contents	791
Appendix 1. Variable Selection in the Calculation of Damping Time	800
Appendix 2. Alternative Approaches to Damping Time Estimation for Table 4.2	794
Appendix 3. Damping Time Estimations under the Condition $2\pi = 1$	796
Appendix 4. 3D Dependencies: $GDPs = f(Qs, t)$	820
– Constructed Using the Distance Method	820
– Constructed Using MathCAD (G8 and BRIC Countries)	828
Appendix 5. Damping Time Calculation for Money Supply	831
– Including the Case $2\pi = 1$	840
Appendix 6. Countries Ranked by Birth Rate (2009)	850
Appendix 7. Mortality Rates (CIA World Factbook, 2009)	853
