Democritus

INTRODUCTION

The calculation and prediction of GDP, the primary indicator of an economy, as well as the estimation of population size, both for individual countries and the world as a whole, are the subject of numerous monographs and articles. Consequently, many people constantly face the question of what direction their own country's economy, and the global economy in particular, will take in the near future, and how this will affect the income of the average citizen.

Based on the analysis of statistical data variables, the author has derived polynomial dependencies with sufficiently high correlation coefficients for most of them, which allows for the prediction of the considered variable values with a high degree of accuracy.

This book is dedicated to my son, *Mikhail*, and to the memory of my parents and elder brother.

CONTENTS

VOLUME I

INTRODUCTION	3ABA 1
CHAPTER 1	
SOME QUESTIONS ABOUT ECONOMY, POPULATION AND THEIR PREDICTIONS	5
1.1. Parameters Characterizing a Country's Economy	5
1.2. Demography of Countries Worldwide	23
1.2.1. World Population Growth	23
1.2.2. Demographic Indicators	27
1.2.3. General Theory of Human Population Growth	33
1.2.4. Demographic Transition	34
1.2.5. Global Demographic Transition	36
1.3. Nature and Classification of Projections	37
1.3.1. Nature of Economic Projections	37
1.3.2. Classification of Economic Projections	42
1.4. Projection Systems	45
1.4.1. Types of Projection Systems and Typical Structure	45
1.4.2. Organization of Projection Activities	48
1.4.3. Projection and Planning System of the Russian Federation	52
1.5. Macro- and Micro-Projections	54
1.5.1. Projection of Macroeconomic Indicators	54
1.5.2. Projection of Socioeconomic Indicators	59
1.5.3. Demand Projection	61
CHAPTER 2	
THEORETICAL KINDS OF CHANGING IN ECONOMY AND POPULATION	66
2.1. Construction of a Table of Economic and Population Size Trajectories	66
2.2. Trajectories of the Variables <i>et</i> and <i>pt</i>	75
2.3. Classification of Trajectories for the Variables <i>et</i> and <i>pt</i>	118
2.4. Classification of Countries by the Areas Covered by GDP and Population Size	119
CONCLUSIONS	123
CHAPTER 3	
THEORETICAL OSCILLATIONS OF ECONOMY AND POPULATION	124
3.1. Damped Oscillations in the Theoretical Stabilization of Population Size	124
3.2. Practical Changes in a Country's Population Size	128
Small Oscillations Around a Given State	130
Small Oscillations and Stability	137
3.3. Theoretical Trajectories of Damping Time <i>Tod</i> as a Function of Mortality <i>Dr</i> , Fertility <i>Fr</i> and Initial Population Size <i>Po</i>	140
3.4. Практические варианты развития времени затухания <i>Tod</i> в зависимости от смертности <i>Dr</i> , рождаемости <i>Fr</i> и численности населения <i>Po</i>	181
3.4.1. General Patterns in the Development of Damping Time <i>Tod</i>	181
3.4.2. Damping Time <i>Tod</i> by Country	191
Countries G8	191
USA	191
Japan	195
Germany	199
France	203
Italy	207
UK	211
Canada	215
Russia	219
Countries BRIC	223
China	223
Brazil	227
India	231
Развитые страны (Developed countries)	235
Sweden	235
Finland	239
Spain	243
Republic of Korea	247

Australia	251
Turkey	255
Developing countries	259
Nigeria	259
Zambia	263
Peru	267
Страны, где произошли природные катаклизмы или смена правительства	271
Fiji	271
Indonesia	275
the Dominican Republic	279
Haiti	283
CONCLUSIONS	287
CHAPTER 4	
ANALYSIS OF GDP AND POPULATION SIZE IN SELECTED COUNTRIES	288
4.1. Countries G8	288
USA	290
Japan	299
Germany	306
France	312
Italy	318
UK	324
Canada	330
Russia	337
4.2. Countries BRIC	343
China	343
Brazil	349
India	354
4.3. Developed countries	361
Sweden	361
Finland	366
Spain	372
Korea, South	378
Australia	384
Turkey	390
4.4. Developing countries	396
the United Arab Emirates	396
Nigeria	402
Zambia	408
Peru	414
4.5. Countries Affected by Natural Disasters or Government Changes	420
Fiji	420
Indonesia	426
the Dominican Republic	433
Haiti	439
4.6. Summary Tables and Graphs	446
Summary Tables Ranked by Decreasing Correlation Coefficients	446
Summary Tables Ranked by Decreasing Mean Values	451
CONCLUSIONS	457
